

Sprayer Trailer

The sprayer trailer you can depend on

The Sprayer trailer to freilauber is reliable, robust, and the ideal spraying device for viticulture and fruit growing.

Thanks to the construction of the chassis, we can achieve a very fast yet smooth operation in the vineyard. The application is excellent due to the hydraulically adjustable air performance. This saves you fuel costs, time, and helps protect the environment. Conclusion - the perfect device for viticulture and fruit growing!

Container Size/Outer width

Sprayer trailer

- 800L/1,20m
- 1000L/1,25m
- 1200L/1,30m
- 1600L/1,34m
- 2000L/1,36m
- 2500L/1,40m

Multi-row sprayer trailer

- 1200L/1,30m
- 1600L/1,34m
- 2000L/1,36m
- 2500L/1,40m

Standard equipment

Sprayer trailer

- Galvanized base frame
- Stainless steel tank with V4A baffle wall
- QU 13,5 fan with swivel nozzles
- Fresh water tank
- Pump hangs in the three-point: no wide-area PTO shaft required, very tight turning radius
- Flushing device with 3-way stopcock
- Compact control unit for complete control of the trailer
- Fitting with electric pressure adjustment and partial width shut-off (also possible in two-substance treatment)
- Tangential blower with swivel nozzles for even air distribution over the entire foliage wall, speed hydraulically adjustable

Multi-row sprayer trailer

- Galvanized base frame
- Stainless steel tank with V4A baffle wall
- QU 13,5 fan with swivel nozzles
- Fresh water tank
- Pump hangs in the three-point: no wide-area PTO shaft required, very tight turning radius
- Flushing device with 3-way stopcock
- Tandem axle
- Fan start-up protection
- Electr. rotatable external fans
- Hydr. linear width adjustment
- Hydr. infinitely variable power
- Valve units for four boom sections with electr. pressure adjustment

Extras

- Braked tandem axle
- Two-substance system
- Flow meter
- Syringe computer
- leaf springs

- Tangential fan QU 14
- Pendulum axle
- Pendulum at the head
- Three-row sprayer
